PROFILE

Motivated and detail-oriented Information Technology undergraduate with strong skills in software development, web technologies, and mobile application design. Experienced in building full-stack projects using React, Node.js, Java, and Python. Passionate about solving real-world problems through technology, with proven strengths in teamwork, adaptability, and problem-solving. My Career Objective (Seeking an internship to apply my software development skills and gain hands-on industry experience)

EDUCATION

BSc (Hons) in Information Technology   Feb 2023 - Jun 2027
Sri Lanka Institute of Information Technology (SLIIT), Malabe, Sri Lanka

TECHNICAL SKILLS

- **Programming Languages :** Java, Python, JavaScript, C, C++
- **Web Technologies :** React, Node.js, HTML, CSS, SQL
- **Databases :** MongoDB, MySQL, SQL Server
- **Tools & IDEs :** Visual Studio Code, Android Studio, Figma, R-Studio, MySQL Workbench, Git
- **Concepts :** Object-Oriented Programming (OOP), Full Stack Development

PROJECTS

Master Neon – Customize neon design sign Web Site   Jan 2026
- Developed a custom neon sign design system where users can create personalized neon text/logo designs and download production ready PDF files with full specifications.
- Built using MongoDB, Express, React, and Node.js with a modern, user friendly UI.

Student Management System   Dec 2025
- Developed a backend system for managing student records using CRUD operations. Applied OOP principles, clean code practices, and Git/GitHub for version control.
- Built using SQL, C#, and TypeScript with a user-friendly UI.

OXY_Fitness – Gym Management System   May 2025
- Developed a comprehensive gym management platform with role-based access control, user registration, membership tracking, and workout scheduling.
- Built using React, Node.js, and MongoDB (MERN stack).

Budget Tracker – Financial Tracker App   Jul 2025
- Created a financial tracking mobile app to manage income and expenses efficiently. Designed using Android Studio and integrated with a local database.
- Built using Kotlin, Java, Shared Preferences.
